Education:

Bachelor of Sciences in Computing Science | Trinity Western University, Langley, BC

2023-2027 (Expected)

Coursework:

- Data Structures & Algorithms Grade: B-
- Web Development Grade: A+
- Artificial Intelligence Grade: B-
- Operating Systems Grade: B+

Projects:

- Food Mesh Donation Management System (Android Studio, Firebase, Google Cloud)
 - WebGL Interactive 3D Bouncing Ball
 - Hamster Robot Maze Solver (AI, Python, Search Algorithms)
 - Hamster Robot Soccer RoboCup (AI, Python)
-

Skills:

Languages:

- English (Fluent) – IELTS Band Score 7.0
- Urdu (Fluent)
- Hindi (Fluent)
- French (Conversational Basic) – Introductory Level French Completed
- Arabic (Conversational Basic)
- Punjabi (Conversational Basic)

Programming Languages:

Proficient:

- Python
- JavaScript
- HTML
- CSS

Working Knowledge:

- Java
- SQL

Basic Knowledge:

- C/C++

Frameworks & Tools:

Proficient:

- Vue.js
- GitHub/Git/Gitlab
- React
- Node.js

Working Knowledge:

- Express
- WebGL

Basic Knowledge:

- Firebase
- Flutter

Databases:

Basic Knowledge:

- MySQL
- Firestore

Software & Platforms:

Proficient:

- VS Code
- Android Studio
- Blender

Basic Knowledge:

- Unity Game Engine

Media, Editorial Skills & Creative Tools:

Proficient: Adobe Premiere Pro, CapCut, Article Writing, Interviewing, Editing & Proof

Reading

Working Knowledge: Adobe Photoshop

Basic Knowledge: Adobe After Effects

Experience:

Web Developer Intern – InoTech Solutions Rawalpindi, Pakistan | May – June 2025

- Worked on the ASEA School program project.
- Used React and Node.js to design and develop an interactive user interface for the school website.
- Fixed issues in existing backend files and adding APIs to servers to meet the new requirements of the school.
- Created the admin, teacher, parent and student logins and added them to the existing MySQL encryption databases
- Completed an interactive website with separate dashboards for special needs kids, parents and school admins.

Full Stack Developer Intern – TereSol Pvt Ltd. Islamabad, Pakistan | July – August 2025

- Learned how to create a full stack web application using Vue.js for the frontend, Express for the backend and MongoDB for the database, achieving a function end to end system user for core application features.
- Designed and integrated state management with XState to connect frontend workflows with backend services, improving the reliability and clarity of my application logic.
- Used third party APIs to create contact services boxes for receiving messages straight to work inboxes.
- Used existing AI APIs to design a study service a website for students enabling them to enter keywords and AI fetching exact YouTube videos while filtering content to student needs.

Community Living Editor – Mars' Hill Magazine Trinity Western University Langley, BC V2Y 1Y1 | August 2025 – Present

- Interviewing professors, athletes and students about certain events their role for the community at Trinity.
- Finding interesting topics/events that are coming up or have past and require coverage on the magazine.
- Meeting with potential candidates for the Community Living Editor role.
- Collaborating on different sections of the magazine to brainstorm/write with the staff writers.
